ATTENTION: Cyril P. Donahue, President

Dear Mr. Donahue:

Thank you for your letter of November 25, 1986 requesting that the Department of Transportation discontinue plowing of the section of McKinnon Road between Silverbirch Subdivision in Douglastown and Campbell's Hill.

On October 15, 1985 I received a request from the Village of Douglastown for winter maintenance on this section of "designated highway". This was to provide an alternate route for fire services, ambulance, etc. in the event of an emergency.

On November 28, 1986 I contacted Mayor Ron Kierstead regarding this matter. Mr. Kierstead reiterated the village's request that the road be plowed.

It is most unfortunate that you are experiencing the problems to which you have made reference. However, the McKinnon Road is a designated highway and the department is obligated to provide winter maintenance.

Sincerely,

George Haines
District Engineer
