Attention: David Gunn

Dear Sirs:

We are approaching another ski season with enthusiasm as we are now preparing our trails and performing maintenance on our facilities and equipment.

We have a capital project with which we would solicit your cooperation once more. Some time ago, you provided us with a generous load of rough sawn 2' x 6' lumber. This came in very handy and was well used and appreciated by the Club.

Currently, we are embarking upon a modest capital project to construct a secure building to house our equipment year round. Since the amalgamation of the Village of Nelson with the City, we have lost the storage facilities we have been using for the past ten years.

In addition, some of the original bridges require new decking. We have calculated a need for 700 square feet of number 3 quality lumber, if this would be possible. Pieces 8' or longer would be appreciated, and although 2' x 6' would be ideal, we would be happy with a variety of widths.

As in the past, we would be happy to give public recognition to your Mill for its generous assistance, including displaying your logo at the Clubhouse. However, occasionally a sponsor requests that such acknowledgements not be made publicly, and we would be guided by your preferences in this respect.

The best trails in New Brunswick!

September 14, 1998

Please consider this request for such a donation and get back to the undersigned as soon as possible so that we may finalize our plans. Thank you for your cooperation.

Yours very truly,

MIRAMICHI CROSS-COUNTRY
SKI CLUB
