**Attention: John Copp**

Dear Mr. Copp:

This is further to your recent conversation with Norm Brown.

In 1994, 1995, and 1996 the "50+" grant workers were made available to the Ski Club by the Village of Nelson and then by the City in mid-August. Last year they did not arrive until after the construction season and left us with several pending projects.

If possible, we would like to have the two workers we have always had assigned to us, George Sproul and Keith Dickson, in August when they resume work, or as soon as possible thereafter.

Among the outstanding projects are the following:

1. Raise the Ski Club building to level the floors;
2. Replace the roof of the clubhouse;
3. Rebuild several leaking windows;
4. Alterations to the plumbing;
5. The former Fire Department smokehouse has been given to us. This requires extensive renovations in order to house our equipment, including insulation, interior sheathing, painting, and new doorways;
6. The woodshed must be raised and a proper floor installed;
7. A section of the Orange Trail must be rerouted and cut to standards;

The best trails in New Brunswick!

8. There are approximately Eight (8) cords of firewood to be sawn and split;
9. Miscellaneous repairs.

As you know the Miramichi Cross Country Ski Club provides low cost outdoor winter recreation for adults and children, and has been serving the Miramichi Region for 22 years. We would appreciate your efforts to assist us with this work, all of which will be performed on City property.

Please get back to me as soon as possible.

Yours very truly,

MIRAMICHI CROSS COUNTRY  
SKI CLUB

Gerald F. Smith, President
